What to revise	Priority	Log	Flash Cards	Mind Maps	Cornwell Notes
Complete at least 2 past papers Practice answering full papers under strict timed conditions to ensure you allocate the correct amount of time for each question (especially Q4 and Q5). For all answers, and particularly the 40-mark Q5, revise complex punctuation (semicolons, colons, dashes) and a broad, accurate vocabulary (AO6). Always leave 5 minutes to proofread your Q5 response.					
Practise writing different non-fiction forms (e.g., article, speech, letter) on various topical issues. Always plan your response, identifying a clear Purpose, Audience, and Form, a persuasive/argumentative viewpoint, and a structure (introduction, main points, counter argument, conclusion) that uses a range of persuasive techniques.
